

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE first printed Catalogue of the books in the Library of the *Incorporated Law Society appeared in 1841, and was followed by others in 1851 and 1869 ; then, after a lapse of more than twenty years, a larger one was issued in 1891, and Supplements to it in 1894 and 1898. The present Supplement embodies these two Supplements and contains all additions made to the Library during the fifteen years from July 1891 to July 1906 ; it also contains the Society's manuscripts which are now catalogued for the first time.

Neither the Catalogue of 1891 nor this Supplement contains the books in the Mendham collection. A separate Catalogue of these was printed in 1871, and was followed in 1874 by a short Supplement, both of which are now out of print.

The present Supplement has been compiled on the same principles as the Catalogue of 1891, all works being arranged under the names of their authors (when known) and subjects. In exceptional cases, works have been catalogued under the names of their editors or publishers. The dates of publication of all works as well as their authors' names have been given, when they could be ascertained. The enclosure in square brackets of any information concerning a volume (such as the author's name or the date of publication) denotes that such information has been obtained from sources other than the title page.

* The present name and style of ' The Law Society ' was granted to the Society by Royal Charter, in 1903.

The following abbreviations have been used :—

A. P. M. . . .	Annual Provincial Meeting of the Law Society.
Bibl. Soc. Mon.	Bibliographical Society's Illustrated Monographs.
Bibl. Soc. Pub.	Bibliographical Society's Publications, First Series.

In September 1903, Mr. Frederic Boase, who had been Librarian to the Society for upwards of twenty-five years, retired, and in April 1904 the Council appointed Mr. W. M. Sinclair to be Librarian in his place.

The completion of the new wing of the Society's Hall, in the spring of 1904, permitted the removal from the East Library to the Common Room and other rooms in the building of nearly 10,000 volumes, whereby the overcrowding of the books in the former room was relieved and space was left for future extensions. At the same time a separate library was formed in the West Room for students and members' clerks, and the East Room is now reserved for the exclusive use of the members of the Society.

The total number of volumes in the Library is 47,000.

July 1906.
